in this practical eye opening and action oriented book nina garcia explains how to use connection to raise well behaved kids and strengthen your parent child relationship you ll learn how to diffuse and prevent tantrums and outbursts how to better communicate with your child practical advice on structuring your day around routines the secret to starting your day off right with your child how to parent calmly and not lose your temper and so much more maybe you re fed up with your child s outbursts and wonder how many tantrums are too many or you want to address his behavior with empathy and patience rather than through punishment perhaps you want to lessen fighting as well as equip your child with the skills to prevent arguments in the first place you ve tried time outs counting to three before they re really in trouble maybe you ve lost your temper except nothing is working at least in the long run you continue to butt heads and you re exhausted with having to deal with yet another day of disciplining and here s why we ve got this discipline thing all wrong we assume discipline is about punishment or we assume it s what we need to take away from them to curb misbehavior we mistakenly believe that the main purpose of discipline is to stop tantrums and outbursts at all costs as quickly as possible let s get to the real definition of discipline discipline is teaching our kids because isn t that what parenting really is your job is to arm them with the skills they need and would serve them well in the future so they grow into kind adults who can regulate emotions or empathize with others they ll be adults who treat others with respect and don t expect the world to bow down to their wishes the kind of person you d want your child to eventually grow up to be with each outburst comes the opportunity to help them develop these skills they learn more about their feelings and appropriate ways to express them a child who can articulate mad can identify that emotion and use techniques to convey frustration so that next time there won t be a tantrum to get their point across but rather a more mature discussion or a different way to control their temper and the best way to discipline is through connection as ironic as it sounds we need to connect with our kids when they re acting up the times when they re most unpleasant are when they need us the most connection works to prevent outbursts as well as better handle them when they inevitably happen this doesn t mean you ll be permissive you still need to enforce limits and set boundaries you won t let your child continue to jump on the couch or color on the walls when he s not allowed to but you focus on what you want your child to learn from the incident rather than only making sure he doesn t do it again because yes it s important your child stops coloring the walls but it s equally important for him to develop the skills to communicate and make better decisions you don t accept the behavior but you are there to guide him through it this book provides you with the tools you need to handle conflict as you see fit what worked one day may not work the next and what worked for your first child may be ineffective with your second you don t have to get it just right parenting with purpose is for parents who want to raise their children using intention and mindfulness are you ready to raise well behaved kids and strengthen your relationship with your child scroll to the top of the page and get your copy now

part of the social worlds from the inside out series this book introduces undergraduates to the study of the family one of the largest courses taken on sociological institutions it aims to present the social world of the

family from the inside out through the lived experiences of its participants

the 1 sunday times bestseller this book has changed my life joe wicks as a parenting support book this is in a class of its own it is perhaps the most helpful book for parents of children of any age professor peter fonagy ceo anna freud national centre for children families this is a book that will change lives dr suzanne zeedyk infant psychologist this book is absolutely brilliant i love that it is about parenting a healthy brain dr guddi singh paediatrician and health campaigner want to know the secret to tackling tantrums and tears stopping squabbles in seconds and lay the foundations for your child s good mental health in the process in there s no such thing as naughty mum to two young children journalist and children s mental health advocate kate silverton shares her groundbreaking new approach to parenting under fives that helps to make family life so much easier and and certainly a lot more fun kate s unique strategies easy to follow scripts and simple techniques will enable you to manage those tricky everyday challenges with ease and help you to enjoy the strongest bond possible with your child both now and in the years ahead endorsed by leading figures in the field of children s mental health at the heart of the book is a simple and revelatory way to understand how your child s brain develops and how it influences their behaviour rooted in the latest science explained really simply this engaging accessible and warm parenting guide will redefine how you see and raise your children with a new understanding that for under fives there can be no such thing as naughty there s no such thing as naughty was a sunday times bestseller w c 03 05 21 it was in the top 10 for 4 consecutive weeks

families and parents have the most central and enduring influence on children s lives of all the modifiable factors that influence child and adolescent development and life course outcomes the important role of parenting arouses the interest of many researchers exploring the effect of parenting on their children s social emotional adjustment mental health and academic achievement and its underlying mechanism could provide an extremely important reference for early intervention prevention and treatment despite a large number of local national or international empirical studies in this field some questions are still open for discussion such as the underlying mechanism of the association between parents cognition parenting practices and child development under a comprehensive system of parenting in a different demographic e g racial ethnic and economic contexts the changes of parenting accompanied with social change and era development the interaction of parenting and other factors within family system or other external systems e g school and so on for this research topic we adopt a broad definition of parenting including parents opinions and feelings about their own parenting roles and parents beliefs attitudes socialization goals and parenting practices toward their children the main aim is to explore the effect of parenting on child and adolescent development including self social emotional and academic development which can help further design effective intervention programs to promote children s and adolescents positive development via effective parenting we are particularly interested in manuscripts focusing on the following research subtopics 1 theories and underlying mechanisms mediators or moderators to explain why and how could parenting affect child and adolescent development 2 the associations between parenting and child development in different demographic contexts or at different times 3 the similarities and discrepancies between children and parent report about parenting and its influence on the child and adolescent development 4 the specific effect of paternal parenting or the effect of co parenting on child and adolescent development 5 the potential interaction effect of parenting and other factors such as teacher peer grandparent and sibling on child and

adolescent development quantitative studies e g cross sectional and longitudinal studies cohort studies experimental studies intervention studies meta analysis and qualitative studies e g interview studies observational studies systematic review are both welcome

read jennifer kolari s posts on the penguin blog a groundbreaking counterintuitive parenting approach to create deep empathic bonds with challenging children a child and family therapist for more than twenty years jennifer kolari began her career working with children who suffer from severe behavioral problems that experience taught her an invaluable lesson it wasn t tough discipline that helped these kids change their behavior and build self esteem it was unending compassion and empathy now kolari applies these lessons in her work with all families teaching them how to take a non defensive stance through even the most heated moments filled with heartfelt advice connected parenting helps parents set limits and change problem behaviors for good lower the child s anxiety level stop the endless battles over homework routines food and more learn how to keep cool in any situation powerful and inspiring connected parenting includes incredible stories from families who have experienced miraculous transformations often in just a few weeks using kolari s parenting approach it is a dynamic blueprint for bringing peace and loving connections into any family for life

parenting isn t easy showing up is your greatest impact begins right where you are now the bestselling authors of the whole brain child and no drama discipline explain what this means over the course of childhood there is parenting magic in this book michael thompson ph d co author of the new york times bestselling classic raising cain one of the very best scientific predictors for how any child turns out in terms of happiness academic success leadership skills and meaningful relationships is whether at least one adult in their life has consistently shown up for them in an age of scheduling demands and digital distractions showing up for your child might sound like a tall order but as bestselling authors daniel siegel and tina payne bryson reassuringly explain it doesn t take a lot of time energy or money instead showing up means offering a quality of presence and it s simple to provide once you understand the four building blocks of a child s healthy development every child needs to feel what siegel and bryson call the four s s safe we can t always insulate a child from injury or avoid doing something that leads to hurt feelings but when we give a child a sense of safe harbor she will be able to take the needed risks for growth and change seen truly seeing a child means we pay attention to his emotions both positive and negative and strive to attune to what s happening in his mind beneath his behavior soothed soothing isn t about providing a life of ease it s about teaching your child how to cope when life gets hard and showing him that you ll be there with him along the way a soothed child knows that he ll never have to suffer alone secure when a child knows she can count on you time and again to show up when you reliably provide safety focus on seeing her and soothe her in times of need she will trust in a feeling of secure attachment and thrive based on the latest brain and attachment research the power of showing up shares stories scripts simple strategies illustrations and tips for honoring the four s s effectively in all kinds of situations when our kids are struggling or when they are enjoying success when we are consoling disciplining or arguing with them and even when we are apologizing for the times we don t show up for them demonstrating that mistakes and missteps are repairable and that it s never too late to mend broken trust this book is a powerful guide to cultivating your child s healthy emotional landscape

set up your child and yourself for success and learn how discipline can be more about teaching than punishment and more positive than negative for parents and children time and research tested common sense parenting skills have been adapted to meet the needs of parents and caregivers of young children ages 2-5 in this second edition parents are given enhanced parenting skills with updated parent steps and clearer explanations for how and why to use these steps with children set reasonable expectations based on your child's age development and abilities give your child the nurturing love and praise he or she needs to thrive use a parent's version of show and tell to both prevent problems and correct misbehavior create plans for staying calm for you and your child parents will benefit from Boys Town's decades of experience in working with kids to help moms dads and other caregivers enhance their child rearing skills and develop a calm skill focused approach to discipline

winner mom's choice gold award for parenting books mom's choice awards the best in family friendly media my kid is smart but it takes more than school smarts to create a fulfilling life in fact many bright children face special challenges some are driven by perfectionism some are afraid of effort because they're used to instant success some routinely butt heads with authority figures some struggle to get along with their peers some are outwardly successful but just don't feel good about themselves this practical and compassionate book explains the reasons behind these struggles and offers parents doable strategies to help children cope with feelings embrace learning and build satisfying relationships drawing from research as well as the authors clinical experience it focuses on the essential skills children need to make the most of their abilities and become capable confident and caring people

lauren sandler is an only child with an only child of her own who found that discussing the choice to stop at one kid was loaded with anxiety doubt misinformation and judgment after investigating what only children really are like and whether stopping at one child is an answer to reconciling motherhood and modernity she learned a lot about herself and a lot about our culture's assumptions in this heartfelt work sandler demystifies the perceived problems of the only child and legitimizes a conversation about the larger societal costs of having more than one we ask when people are having kids never a kid never one child at a time if parents no longer felt they had to have second children to keep from royally screwing up their first would the majority of them still do it and if the literature tells us in hundreds of studies that a child isn't better off with a sibling and it's not something parents truly want for themselves then whom is this choice serving one and only examines these questions exploring what the rise of the single child family means for our economies our environment and our freedom sandler considers hundreds of studies and interviews traveling around the world to discover that only children are just fine their parents often happier and our planet is better off for them sandler's controversial revelations will probably draw rebukes from the majority of parents who believe that having several children is the healthiest model for all members of a family others will claim that she's quite possibly cracked the code of happiness demonstrating that having just one may be the way to resolve our countless issues with adulthood in our overtaxed age

how to raise godly children in a godless world do you feel like you're fighting a losing battle against the culture against the busyness sometimes even against your spouse and kids often it seems like everything is against you as a parent and your everyday life can feel far from joy filled but it doesn't need to be that way parents rising will show you eight cultural trends that parents are up against today and what you can

do to claim victory this book is about growth not guilt it's not a pep talk or a try harder speech this is real help for real problems that every parent faces it's a way to focus your efforts so that they'll be more effective and you'll be less exhausted

life for kids sometimes feels like a series of demands take out the garbage do your homework don't talk to strangers time for bed no wonder children complain that their parents always tell them what to do but it's important for them to understand that parents say these things because they love them it is also a parent's responsibility to protect their children and teach them how to be functioning members of society parents offer good advice based on their life experiences this book examines some different rules parents set for their kids and what kids can learn by following them readers will connect to the text through colorful photographs

defines biological adopted foster and stepparents discusses the needs of parents explains how parents care for their children and tells how to develop a good relationship with parents

tools for identifying and developing spiritual social and emotional growth from birth to adulthood our children's physical and intellectual development is carefully tracked and charted but what about their hearts after all how our children develop emotionally socially and spiritually will determine who they become as husbands and wives fathers and mothers friends and co workers are my kids on track helps you identify and measure 12 key emotional social and spiritual milestones in your children's lives moreover you will discover practical ways to guide your kids through any stumbling blocks they might encounter and help them reach the appropriate landmarks along the way the authors pinpoint the different ways boys and girls develop so you can help your child flourish in his or her own way filled with decades of experience from three practicing counselors speakers and writers this book provides you with valuable current research and user friendly hands on practices to make supporting your kids soul development a seamless part of family life don't just raise smart kids raise courageous compassionate resilient empathetic and smart kids

parents have heard that play is a child's work but play is not for kids only as psychologist lawrence j cohen ph d demonstrates in this delightful new book play can be the basis for an innovative and rewarding approach to parenting from eliciting a giggle during baby's first game of peek a boo to cracking jokes with a teenager while hanging out at the mall playful parenting is a complete guide to using play to raise strong confident children have you ever stepped back to watch what really goes on when your children play as dr cohen points out play is children's complex and fluid way of exploring the world communicating hard to express feelings getting close to those they care about working through stressful situations and simply blowing off steam that's why playful parenting is so important and so successful in building strong close bonds between parents and children through play we join our kids in their world we help them express and understand deep emotions foster connection aid the process of emotional healing and have a great time ourselves while we're at it anyone can be a playful parent all it takes is a sense of adventure and a willingness to let down your guard and try something new after identifying why it can be hard for adults to play dr cohen discusses how to get down on the floor and join children on their own terms he covers games activities and playful interactions that parents can enjoy with children of all ages whether it's gazing deep into a baby's eyes playing chase with a toddler fantasy play with a grade schooler or reducing a totally cool

teenager to helpless laughter playful parenting also includes illuminating chapters on how to use play to build a child's confidence and self esteem how to play through sibling rivalry and how play can become a part of loving discipline written with love and humor brimming with good advice and revealing anecdotes and grounded in the latest research playful parenting will make you laugh even as it makes you wise in the ways of being a happy effective enthusiastic parent

this parenting book actually made me a better parent lydia kiesling the new york times from 1 new york times bestselling authors the ultimate parenting bible the boston globe a timeless beloved book on how to effectively communicate with your child this bestselling classic by internationally acclaimed experts on communication between parents and children includes fresh insights and suggestions as well as the author's time tested methods to solve common problems and build foundations for lasting relationships including innovative ways to cope with your child's negative feelings such as frustration anger and disappointment express your strong feelings without being hurtful engage your child's willing cooperation set firm limits and maintain goodwill use alternatives to punishment that promote self discipline understand the difference between helpful and unhelpful praise resolve family conflicts peacefully enthusiastically praised by parents and professionals around the world faber and mazlish's down to earth respectful approach makes relationships with children of all ages less stressful and more rewarding

how does technology impact kids mental health and physical well being how do screens affect babies how can i protect my children from cyberbullying what are the positive effects of technology how can we bridge the technology generation gap with aggregate case studies and the latest research psychoanalyst laurie hollman phd answers these questions and many more in this contemporary up to date mini book for parents learning to manage technology with their children and teens parents who follow the 5 steps of the parental intelligence way become meaning makers deeply interested in what goes on in their children's minds and how their brains work as they use technology in this helpful guide parents will come to understand new research findings that are both exciting and overwhelming as these findings become more complete in the decades to come utilizing parental intelligence will help parents continue to discover their children's capabilities as they learn the meaning behind their kids technological behaviors and conflicts

a revised and updated edition of the classic inspiring guide to raising calm and secure kids in a frenetic world featuring a new chapter to address the modern parent's concerns over setting limits and coping with social media brilliant wise informative innovative entertaining and urgently needed a godsend for all who love children and for children themselves edward hallowell m d author of the childhood roots of adult happiness today's busier faster society is waging an undeclared war on childhood with too much stuff too many choices and too little time children can become anxious have trouble with friends and school or even be diagnosed with behavioral problems internationally renowned family consultant kim john payne helps parents reclaim for their children the space and freedom that all kids need for their attention to deepen and their individuality to flourish accessible and thoughtful simplicity parenting offers inspiration ideas and a blueprint for change streamline your home environment reduce the amount of toys books and clutter as well as the lights sounds and general sensory overload establish rhythms and rituals discover ways to ease daily tensions create battle free mealtimes and bedtimes and tell if your child is overwhelmed schedule a break in the schedule establish intervals of calm and connection in your child's daily torrent of constant doing scale

back on media and parental involvement manage your children's screen time to limit the endless deluge of information and stimulation cultivate a values centric family culture instead of a child centric culture model your authority not your authoritarianism a manifesto for protecting the grace of childhood simplicity parenting is an eloquent guide to bringing new rhythms to bear on the lifelong art of raising children

we are not born hating our bodies make sure your kids never do no parent wants their child to grow up with anything less than wholehearted confidence in themselves but sadly research shows that over half of 11 to 16 year olds regularly worry about the way they look campaigner and mum of two girls molly forbes is here to help in body happy kids molly draws on her own experience and a range of experts to provide parents with a much needed antidote to the confusing health advice that bombards us every day this reassuring and practical guide covers everything you need to help your child to care for their body with kindness including how to approach good nutrition without falling for diet culture how to see the reality behind beauty ideals and how social media can be used to support body confidence rather than destroy it with molly's help you can arm yourself with the insight and tools to raise resilient children who love the skin they're in page 4 of cover
